During a long and tedious session of Congress, pressing and one crous duties nearly prostrated me. A kind friend suggested the use of the proparation I have named. I find it to be an invaluable tonic, and unbesitatingly recom-mend it to all who are suffering from Dyspepsia. From the Hon. JACOB BROOM. Philadelphia, Oct. 7, 1864

Gentlemen:—In reply to your inquiry as to the effect produced by the use of Hoodand's German Bitters, in my family, I have no hesitation in saying that it has been highly beneficial. In one instance a case of Dyspepsin of thirteen years standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third it seems has confirmed the cure, for there has been no symptoms of its refirmed the care, for there has been no symptoms of its re-turn for the last six years. In my individual use of it, I find it to be an unequalled tonic, and sincerely recom-mend its use to sufferers. Yours, truly, JACOB BROOM, 1707 Broom Street.

From Rev. W. D. Seigfried, Paster of the 12th Philadelphia, December 26th, 1863. Messrs. Jones & Evans. Gentlemen; - I have been recently laboring under the distressing effects of ladiges-tion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hootsome of them tested, but without relief. Your Hootland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "Bitters," whose only aim seems to be to palm off sweetened and drugged liquer upon the community, in a siy way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach but on the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles. Very respectfully yours,

Epiroe Journal:-As I waked this morning I heard at intervals sleet pelting the canvass sovering above me, and on looking out found that the ground was covered and white. About eight o'clock the sleet became ram, and at the same time became continuous. Now we are having a pitiless storm from the north-east, and it promises to continue indefinitely. No outdoor work to-day, unless absolutely necessary. We sit around our stove and very frequently mention is made most sympathizingly of the soldiers, several regiments of whom left us here day before yesterday to participate in some movement on the left, or farther south. News of this operation you will receive through other sources before this can reach you. We get nore rumors than reliable information. But we are now fearing the effects of the storm upon the men who two days ago left us in light marching order and are therefore now without shelter. It cannot fail to injure their health .-ARE our authorized Agents for the FREMONT JOHNNAL, They are not very far off, and we hear good reports of their work, although a portion of them have never done any fighting before.

As far as I can judge the soldiers of the 9th

army corps are desirous, very desirous, to have the war close. They hope it will close soon .-Jeweiry and Musical Instruments of every descript One with whom I talked yesterday as they were halting on their march, expressed a good deal of disappointment that nothing had come of the recent peace conference. But, though auxious for peace, the soldiers want it only on the basis of our complete success. "Johnny Reb. must give in. Such is their feeling. This feeling is frequently manifested in great strength by the Christian soldiers, who speak or pray in eligious meetings. Only last evening one of them said with great emphasis—"When I en-listed, I enlisted not for one year, or two, or three, but for the war." They are not tired of the war in any such sense as the rebel deserters say they are tired of it. They are willing to finish their work before they quit it.
It is very easy now for a citizen who has prop r passes, to examine the front line of our works. It is only necessary to show who you are, and that you have a right to be here, and you receive from officers and men the most courteon treatment, and can see all that any citizen ought o desire to see. On some portions of the lin there is, by common consent, no picket firing for a large portion of the time. On almost any day one can go down even to the picket line .-This I have not as yet done, simply because it would be to walk for nothing. But from the CHEAPER than any house west of New York breastworks and from various forts I have looked down upon the picket lines of both armie seeing even more than one could see on eithe line. Occasionally some cause or other will set the batteries to shelling, and then one has te look for himself. No citizens have been injured that I know of. Three or four soldiers were killed last week. There is considerable excitement in watching an artillery duel by night. when one can see the shells as they describe their fiery circuit through the air. Our boys tinish, which I will sell CHEAP. usually insist on having the last shot, and when ever they wish to stop the firing they have on ly to drop a shell or two into the city itself.
Yesterday I visited a few "contrabands," who still live in their old homes upon a farm on the bottom-lands of the river. Their masters and mistresses-they belonged to a large familyhave all fled. The old family mansion is en tirely demolished-even the cellar walls are gone, all carried off by soldiers to make quarters. But the negro houses are left untouched. Among these negroes is a young man, apparent ly about thirty years of age, who was within
